# Sparked Summary Status

Report Date:	23 December 2024	Program Status:	Green
Report Period:	December 2024	Program Phase:	Operations

Status Summary	Overall Health..
<p>Significant progress continues on <i>Sparked</i>, with the AU Core FHIR Implementation Guide (IG) advancing toward its final stages. Publication is planned for early 2025, and a snapshot was successfully completed in early December. Meanwhile, scoping for AU Core FHIR IG Release 2 continues in collaboration with the AU Core Sparked Technical Design Group (TDG).</p> <p>The AU Patient Summary Project has been meeting fortnightly, with a face-to-face workshop held on 10 December, while the Patient Summary Focus Group continues its development efforts. In parallel, the AU eRequesting FHIR IG &amp; TDG has completed ballot reconciliation and produced a snapshot for testing at the HL7AU December Connectathon.</p> <p>Infrastructure and tooling have been refreshed with updated test data and IGs to support the HL7AU Connectathon for AU Core, AU eRequesting, and AU Patient Summary. The Sparked Community Design Group (CDG) continues its online meetings, refining use cases for AUCDI Release 2 and commencing the processing of community feedback.</p> <p>Engagement with the broader community remains a priority through Sparked information events and extensive communication via LinkedIn. Preparations are underway for face-to-face meetings with the CDG and TDG in February, as well as a leadership evening in Adelaide. Plans are also in place for publication of the AU Core FHIR IG R1 in late January or early February, along with continued development of all FHIR IGs for testing at the HL7AU Connectathon in March 2025.</p>	Green

# Product Status: AU Core Reference Implementation

Report Date: 23 December 2024

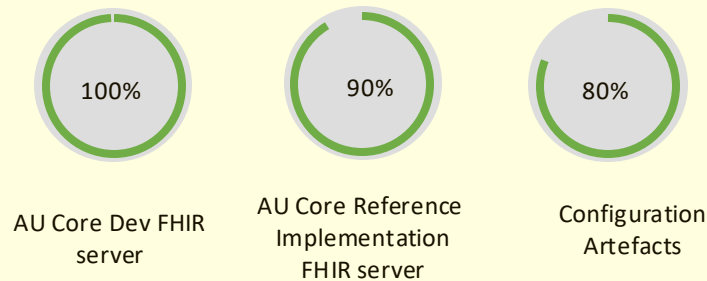

Report Period: December 2024

## Product Definition

Reference implementations assist implementers to adopt the AU Core FHIR IG through:

- Provide a starting point for developers that allows them to decide how to represent AU Core FHIR objects and behaviour within their environment.
- Provide a means for practical testing at Connectathons and through testing and piloting before the FHIR IGs are finalised.
